

Garden Hooks

Rounding out the Austram accessory line are a complete line of garden hooks, rail hooks to allow troughs to hang over deck rails and the strongest brackets in the industry. The Parlour and Crescent garden hooks headline this category, providing a picturesque and durable way to display planters, with the Parlour hook good for planters up to 14" in diameter and the Crescent any bigger planters. The Euro hook is an economical way to display plants, while the 4-arm tree has been in the line since Austram's inception. Finally, the Lotus plant hangers are the most sturdy of their kind in the industry. The company's rail hooks will fit most any trough planter and allow them to go over 2"x2", 2"x4" or 2"x6" rails, while the Euro brackets come in two sizes to accommodate planters up to 24" in size.
